

# OPHTHALMIC SURGERY FOR THE GP: ROUTINE & EMERGENCY TREATMENT OF EYES

April 7-8, 2023 | Oquendo Campus

## Day 1

---

**7:15a Shuttle Staged for 7:30a Departure to Course**

**Upon  
Arrival Breakfast**

**8:00a Lecture: Introduction to Ophthalmic Surgery**

Major Physiologic & Anatomic Features Important for Performing Ophthalmic Surgery  
General Ophthalmic Surgical Principles  
Commonly Used Instruments & Sutures for Ophthalmic Surgery

**9:00a**

**Lecture: Introduction to Eyelid Surgery & Indolent Ulcer Treatments (Grid Keratotomy)**

Physiologic & Anatomic Features Important for Performing Eyelid Surgery  
Biological Behavior & Clinical Appearance of Eyelid Tumors  
Principles for Repair of Eyelid Lacerations & Eyelid Tumor Removal  
Grid & Punctate Keratotomy

**10:00a**

**Lab 1: Eyelid Surgery**

Partial & Complete Temporary Tarsorrhaphy  
Eyelid Laceration Repair  
Cryosurgery for Eyelid Tumors  
Wedge Resection of Eyelid Tumors  
H-plasty  
Grid & Punctate Keratotomy

**12:00p**

**Lunch**

**1:00p**

**Lecture: Introduction to Entropion & Ectropion**

Pathophysiology, Clinical Presentation, & Medical & Surgical Management for Entropion

**2:00p**

**Lab 2: Entropion & Ectropion Surgery**

Eyelid Tacking/Stapling  
Hotz-Celsus Procedure  
Lateral Arrowhead Procedure  
Combined Lateral Wedge Resection/Hotz-Celsus Procedure

4:00p

**Lecture: Case Presentations & Discussions**

5:00p

Interactive Case Discussions Representing Some Common Ocular Diseases

**End of Day**

## Day 2

---

7:15a

**Shuttle Staged for 7:30a Departure to Course**

**Upon  
Arrival**

**Breakfast**

8:00a

**Lecture: Surgical Instruments We Could Not Manage Without**

Essential Ophthalmic Instruments in General Practice

9:00a

**Lecture: Introduction to Third Eyelid Surgery**

Pathophysiology, Clinical Presentation, & Medical & Surgical Management of Third Eyelid Gland Prolapse ("Cherry-eye") & Scrolled Third Eyelid Cartilage

10:00a

**Lab: Third Eyelid Surgery**

Cherry Eye Repair (Pocket & Anchoring Techniques)  
Scrolled Third Eyelid Repair

12:00p

**Lunch**

1:00p

**Lecture: Introduction to Enucleation Surgery**

Ocular Conditions Requiring Enucleation, Exenteration, or Evisceration  
Orbital Anatomy Relevant to Enucleation  
Surgical Principles of Enucleation

2:00p

**Lab: Enucleation**

Transconjunctival Enucleation  
Transpalpebral Enucleation  
Lateral Enucleation

4:00p

**Lecture: Case Presentations & Discussions**

Interactive Case Discussions Representing Some Common Ocular Diseases

5:00p

**End of Course**
