First-ever KNACK Track™ Educational Journeys to Launch at Inaugural WVC Nashville 2026 Elevated Continuing Education Experiences Found Only at WVC

NASHVILLE, TN—[Viticus Group](#), a nonprofit organization and leading provider of innovative veterinary and human healthcare education worldwide headquartered in Las Vegas, proudly announces the launch of the first-ever [KNACK Tracks](#) at the inaugural [WVC Nashville](#) veterinary education conference from Aug. 15–18 at Music City Center. KNACK, an acronym for Keys to Navigating and Applying Clinical Knowledge, is a new elevated continuing education (CE) experience comprised of a comprehensive, small group and assessment-based learning journey. Participants receive immediate feedback and, upon passing the course assessment, will also receive a KNACK Track™ certificate of completion. KNACK Tracks are additional paid products and not included in WVC Nashville conference registration.

“For nearly a century, Viticus Group has provided world-class veterinary continuing education in Las Vegas. With WVC Nashville, we aren't just expanding our reach, but we are launching another level of excellence,” said Andrea Davis, chief executive officer (CEO), Viticus Group. “The KNACK Tracks are specially built for those who value low instructor-to-participant ratios and gaining elevated skills that they can put into practice immediately.”

Different than a standard WVC education session or standalone hands-on lab, KNACK Tracks are designed to:

- Build confidence through robust education such as pre-course work, hands-on lab training and a final practical assessment, earning the participant both RACE-approved CE credits and, upon passing, a KNACK Track™ badge and certificate of completion for each course that reflects demonstrated competence
- Create networking connections in a small group setting as each KNACK Track™ has limited capacity available for focused instruction, allowing for greater guidance and coaching opportunities.

[Four KNACK Track™ experiences](#) are available at WVC Nashville on various dates and times; didactic sessions will be held at Music City Center and any associated KNACK Track™ hands-on labs will be held offsite at the new [Viticus Group Nashville Center](#):

- Introduction to Stifle Surgery for the Novice Orthopedist: Arthrotomy, Meniscus Management and Extra-Capsular Stabilization (ECS) on Sunday, Aug. 16 (didactic session held at Music City Center; hands-on lab included and held at Viticus Group Nashville Center)
- Urolithiasis Essentials: A Hands-On Surgical Foundations Course for Canine & Feline Patients on Monday, Aug. 17 (didactic session held at Music City Center; hands-on lab included and held at Viticus Group Nashville Center)
- Clinic Social Media Lab: Crafting Your Social Media Success Toolkit on Saturday, Aug. 15 (held at Music City Center; no hands-on lab included)
- Veterinary Practice Efficiency Series - The Efficiency Evolution: Turning Insight into Action on Monday, Aug. 17 (held at Music City Center; no hands-on lab included)

With its flagship WVC Annual Conference continuing in Las Vegas, Viticus Group remains dedicated to providing unmatched continuing education as it welcomes participants to its second home in Nashville. The new facility, located approximately 5 minutes from Nashville International Airport and approximately 15 minutes from Music City Center, is a cutting-edge bioskills training center designed to provide advanced hands-on education for veterinary and human health professionals. Additionally, WVC Nashville, the first new national veterinary continuing education conference in more than 40-plus years, is an experience that will match the energy and level of continuing education that WVC participants expect, expanding Viticus Group's legacy of delivering premier continuing education and networking opportunities. Specifically, with the concentration of veterinary professionals in the geographic areas near Nashville, the accessible and centrally located city provided a logical choice to create an additional home for Viticus Group.

About Viticus Group

As powerful innovations alter the world of animal and human health, Viticus Group (formerly WVC) is the leading provider of innovative veterinary and human healthcare education worldwide. As the largest freestanding combined animal and human hands-on (bioskills) training and continuing education organization in the world, Viticus Group offers continuing education at its cutting-edge campuses in Las Vegas and Nashville, presenting a variety of courses and providing access to specialized surgical training for both veterinary and human health professionals. Viticus Group's legacy signature event, WVC Annual Conference, serves as the veterinary profession's premier gathering for innovative education and an opportunity to engage with other industry professionals seeking growth, now offered in both Las Vegas and Nashville. With its expansion to Nashville, Viticus Group is extending its reach and services across the country for enhanced accessibility and increased options. Bringing together life and medicine in Viticus, we envision a future where all medical professionals have access to year-round, hands-on training for a one-of-a-kind experience.
